

ALPINE SNOWGUARDS

Prevent Snow Slide Risks on Premium Synthetic Roofs

THE CHALLENGE

Synthetic roofing is built for extreme performance —offering exceptional longevity, high wind and hail ratings, and eco-friendly durability. However, its smooth, slick finish creates a critical liability: sudden, dangerous snow slides.

THE SOLUTION: ALPINE SNOWGUARDS FUSION-GUARD-11

Purpose-engineered for synthetic systems, the FUSION-GUARD-11 adds essential surface friction to the roof surface, allowing snow and ice to melt off gradually in small, controlled amounts.

FUSION-GUARD-11 & FUSION-SLEEVE System

Seamless Safety

Keep your roof line looking clean. Blend high-performance safety seamlessly into your roof line with our low-profile design.

Built-in Adaptability

Enjoy ultimate flexibility on-site. Easily upgrade into a solid pipe-style barrier system down the road, with no complex re-engineering required.

Retrofit Ready

Protect your roof from leaks. The FUSION-SLEEVE provides a 100% waterproof shield engineered specifically for retrofit applications

Budget Friendly

Protection shouldn't cost a fortune. The FUSION-GUARD-11 offers premium-tier roof protection at a price that fits your budget.

Fusion-Guard 11" | Cold Rolled Steel or Copper Material

Roof Types	Materials	Finishes
