

Prevent Snow Slide Risks on Metal Roofing

THE CHALLENGE

Metal roofing is built for long-term reliability—offering exceptional durability, extreme weather resistance, and sleek design. However, it's smooth, slick surface create a critical liability: sudden, dangerous snow slides.

THE SOLUTION: ALPINE SNOWGUARDS PD30

Purpose-Engineered for metal roofing, the PD30 adds essential surface friction to the roof surface, allowing snow and ice to melt off gradually in small, controlled amounts.

PD30 PAD-STYLE SNOW GUARD

Timeless Aesthetic

Keep your roof timeless. Blend high-performance safety seamlessly into your roof with our premium materials and Fleur-de-lis embellishment for copper.

Lifelong Durability

Your snow retention should be as durable as your roof. Our design delivers optimal strength in material options that withstand intense environmental exposure.

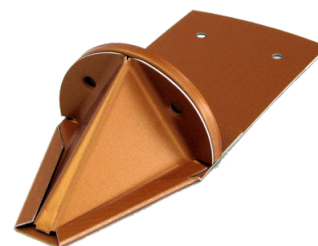

Watertight Security

Protect your roof from leaks. Designed to be mechanically fastened or soldered, when properly installed the PD30 ensures a watertight barrier.

Budget Friendly

Protection shouldn't cost a fortune. The PD30 offers premium-tier roof protection at a price that fits your budget.
