

Prevent Snow Slide Risks on Metal Shingle Roofing

THE CHALLENGE

Metal roofing is built for long-term reliability—offering exceptional durability, extreme weather resistance, and sleek design. However, it's smooth, slick surface create a critical liability: sudden, dangerous snow slides.

THE SOLUTION: ALPINE SNOWGUARDS PD30Z

Purpose-Engineered for metal shingle roofing, the PD30Z adds essential surface friction to the roof surface, allowing snow and ice to melt off gradually in small, controlled amounts.

PD30Z | Charcoal Gray Aluminum

PD30Z PAD-STYLE SNOW GUARD

↔ Timeless Aesthetic

Keep your roof timeless. Blend high-performance safety seamlessly into your roof with our premium materials and Fleur-de-lis embellishment for copper.

💧 Watertight Security

Protect your roof from leaks. Our protective sleeve provides a 100% waterproof shield engineered specifically for retrofit applications

🔗 Lifelong Durability

Your snow retention should be as durable as your roof. Our design delivers optimal strength in material options that withstand intense environmental exposure.

💰 Budget Friendly

Protection shouldn't cost a fortune. The PD30Z offers premium-tier roof protection at a price that fits your budget.

Roof Types	Materials	Finishes
Metal , Synthetic Slate and Shake	Aluminum (AL), Copper (CU), FreedomGray™ (FG), Lead Coated Copper (LC), Rheinzink-prePATINA® Graphite Grey (ZN)	Mill Finish (CU or AL), Kynar Color Chart
