

Prevent Snow Slide Risks on Ludowici® Tile Roofs

THE CHALLENGE

Renowned for exceptional craftsmanship, timeless aesthetics, and unmatched durability, Ludowici® clay tiles are the definition of premium roofing. But, when winter hits, low-friction tiles create a critical liability: sudden, dangerous snow slides

THE SOLUTION: ALPINE SNOWGUARDS PP235

Purpose-engineered for Ludowici® tiles, the PP235 is a durable barricade system engineered to hold the snow mass in place until it sheds gradually, offering superior protection in high snow load areas.

PP235 PIPE-STYLE SNOW GUARD FOR LUDOWICI® TILES

Seamless Safety

Keep your roofline looking clean. Our base plates completely replace tiles to fit seamlessly into roofing arrangements, maximizing both performance and aesthetics

Built-in Adaptability

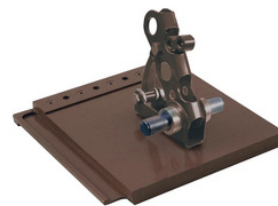

Enjoy ultimate flexibility on-site. Easily adjust the bracket by up to 39° to match various roof pitches, with no complex re-engineering required.

Lifelong Durability

Your snow retention should be as durable as your roof. Our design delivers optimal strength in material options that withstand intense environmental exposure.

Secure Protection

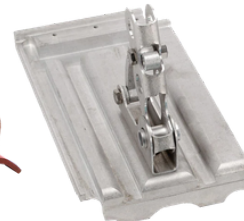

Protect your roof's integrity. Secures directly to the roof deck without drilling or gluing delicate clay tiles, delivering heavy-duty snow retention without compromising the roof.
