

ALPINE
SNOWGUARDS

Prevent Snow Slide Risks on Corrugated Metal Roofs

THE CHALLENGE

Metal roofing is built for long-term reliability—offering exceptional durability, extreme weather resistance, and sleek design. However, it's smooth, slick surface create a critical liability: sudden, dangerous snow slides.

THE SOLUTION: ALPINE SNOWGUARDS SNOWMAX-CORRUGATED

Engineered for corrugated metal roofs, the SNOWMAX-CORRUGATED acts as a continuous barrier to prevent large pieces of snow and ice from falling off the roof. The compression-fit seal offers watertight reliability.

SNOWMAX-CORRUGATED FENCE-STYLE SNOW GUARD

Seamless Safety

Keep your roof line looking clean. Blend high-performance safety seamlessly into your roof line with the addition of a color insert strip or 2" strip of the roofing material for an exact match

Watertight Security

Protect your roof from leaks. Our bracket design creates a compression-fit 100% watertight barrier for secure through-fastening

Buildable Retention

Customize your protection level. Add ice flags to prevent smaller chunks of ice from sliding under the pipes in areas that need additional protection.

Superior Strength

Take on whatever winter throws your way. Crafted from aircraft grade aluminum the SnowMax is the strongest snow management system on the market allowing up to 48 inch bracket spacing.
